MALTHUSIAN “SCIENCE”— THE EMPIRE’S POISON AGAINST REASON

Nov. 26—A group of Russian doctors today issued a public letter to a group of “anti-vaxxers” whose scientific qualifications for their expert advice amounts to playing doctors on TV, or being worshiped as rock stars. Written by the chief physician at Moscow’s main hospital treating COVID-19 patients, the letter states: “We are a bit busy at the moment, and you can guess why. But since many people are reading and listening to you, we will find time to arrange a tour of the ‘red zones,’ intensive care and pathology departments for you. Maybe after that, you will change your mind and fewer people will die.”

Earlier this week, Dr. Joycelyn Elders, the former U.S. Surgeon General and Co-Initiator with Helga Zepp-LaRouche of the Committee for the Coincidence of Opposites, issued an “Open Letter to Virologists and Medical Experts Around the World to Address the Covid-19 Pandemic.” Dr. Elders goes beyond the painful plea of the Russian doctors to overcome the obscurantism of the anti-vaxxers. After 20 months of the killer pandemic, with over five million deaths, she writes, the world “has yet to adopt a unified educational and public information campaign to educate all of the world’s people as to what we all must do.... Pandemics, by their nature, cannot be defeated locally or regionally, but must be addressed globally, with global cooperation and collaboration.”

It is obvious to any honest observer of the current crisis of civilization, with mass starvation in several parts of the world and an out-of-control pandemic, that the collapse or non-existence of a modern health care system in most parts of the world, including the U.S. and Europe, is being ignored, while the royals and billionaires at the Glasgow COP26 conference retail fake science regarding the climate to divert attention from their genocidal intention. It should be just as obvious that the creation of the anti-vaccine movement comes from the same Malthusian architects. Why are so many people raging against vaccines, while ignoring

the fact that the advanced nations have denied access to vaccines to most of the poor nations of the world, with a mere 5% of Africans vaccinated at this point? Are they any less subject to medieval superstition than the poor deranged youth convinced the world will burn up if the progress of the human race is not immediately curtailed? Spain, the only country in Europe not experiencing a 4th or 5th round of COVID-19—and the only one which has lifted all restrictions, even while most of the others are implementing new lockdowns—has successfully vaccinated 96% of those over 40 years old, and 89% of those over 12. Does this tell us anything?

Before World War II, the British and their American dupes promoted eugenics, the pseudo-science launched by Darwinian follower Francis Galton, as legitimate science, arguing that race determined intelligence, and that the “lesser races” must be occasionally “culled” to prevent over-population of defectives. Funded by the Rockefeller Foundation, the family of Averell Harriman and other blue-bloods, the Third International Congress of Eugenics was held in 1932 at the Museum of Natural History in New York City. Dr. Ernst Rudin, the German eugenicist, was unanimously elected president of the International Federation of Eugenics Organizations. Rudin then proceeded to run Adolf Hitler’s sterilization programs and the Nazi extermination policy.

While eugenics was discredited by the policies of Rudin and Hitler, the insane notion that carbon is dangerous to mankind, and to the planet, is no less evil, and far more deadly. So, too, are the efforts to prevent the use of vaccines, especially the refusal to make them available to the whole of the human race, as part of the urgent necessity that modern health facilities be created in every nation on Earth. You are encouraged to support and circulate the statement by Dr. Elders linked above.
